

LCN 2013

The 38th Annual IEEE Conference on Local Computer Networks (LCN)

Novotel Central, Sydney, Australia

21-24 October, 2013

<http://www.ieeelcn.org>

Organizing Committee

General Chair: Anura Jayasumana
Colorado State University, USA

Program Chair: Damla Turgut
University of Central Florida, USA

Program Co-Chair: Nils Aschenbruck
University of Osnabrück, Germany

Local Arrangements

Chair: Salil Kanhere
Univ. New South Wales, Australia

Co-Chair: Olivier Mehani
NICTA, Australia

Finance Chair: Frank Huebner
AT&T, USA

Corporate Relations Chair: Sanjay Jha
Univ. New South Wales, Australia

Publications Chair: Jens Tölle
Fraunhofer-FKIE, Germany

Workshops Chair: Soumaya Cherkaoui
Université Sherbrooke, Canada

Demonstrations Chair: Kemal Akkaya
Southern Illinois University, USA

Publicity Chair: Katrin Reitsma
Motorola Solutions, USA

Publicity Co-chair: Tim Wark
CSIRO, Australia

Editorial Liaison: Matthias Wählisch
Freie Universität Berlin, Germany

Student Grants Chair: Guillaume Jourjon, NICTA, Australia

Webmaster: Gary Kessler
Embry-Riddle Aeronautical Univ., USA

Steering Committee

Joe Bumlis, University of Wisconsin-Stout

Chun Tung Chou, Univ. New South Wales

Ken Christensen, University of South Florida

Ehab Elmallah, University of Alberta

Matthias Frank, University of Bonn

Hossam Hassanein, Queen's University

Gary Kessler, Embry-Riddle Aeronautical Univ.

Tom Pfeifer, Technical University of Berlin

Burkhard Stiller, University of Zürich + ETH

Tim Strayer, BBN

Mohamed Younis, Univ. of Maryland Baltimore
County

Important dates

Paper registration: April 5, 2013

Paper submission: April 12, 2013

Notification of acceptance:

June 30, 2013

Final paper: July 30, 2013

Demonstration proposals:

July 11, 2013

The IEEE LCN conference is the premier conference on the leading edge of theoretical and practical aspects of computer networking. LCN is a highly interactive conference that enables an effective interchange of results and ideas among researchers, users, and product developers. For the past 37 years, major developments from high-speed networks to the global Internet to specialized sensor networks have been reported at this conference. Topics of interest include, but are not limited to:

- Personal and wearable networks
- Wireless ad hoc, sensor & RFID networks
- Information-centric networking
- Embedded networks
- Opportunistic networking
- Delay-tolerant networks
- Cognitive radio networks
- Vehicular and underwater networks
- Social networks
- Mobile and ubiquitous networking
- Green networking
- Overlay and peer-to-peer networks
- Local-area and metropolitan-area networks
- Storage-area networks
- Optical and high-speed access networks
- Home and SOHO networks
- Physical and link layer protocols
- Link technologies
- Adaptive networking applications
- Authentication, authorization, accounting
- Security and privacy
- Cross-layer optimization
- Mobility and Location-dependent services
- Multimedia and real-time communication
- Machine-to-machine communications for smart environments
- Network management, reliability, and QoS
- Network traffic characterization and measurements
- Performance evaluation/engineering
- Testbeds for experiments and simulations
- Network coding

Authors are invited to submit papers describing original, previously unpublished work, not currently under review by another conference, workshop, or a journal. *Full papers* (up to 8 camera-ready pages, 10 pt font in IEEE format) should present novel perspectives within the general scope of the conference. *Short papers* are an opportunity to present preliminary or interim results and are limited to 4 camera-ready pages. Short papers will be presented in a poster session. Both full and short papers are published in the proceedings and IEEE Xplore. All papers must include title, complete contact information for all authors, abstract, and keywords on the cover page. IEEE reserves the right to remove papers from IEEE Xplore that are not presented at the conference.

Paper submission: Papers must be registered on EDAS and submitted in PDF format. Detailed submission instructions are available at the conference website. Direct your questions to Program Chairs: Damla Turgut turgut@eecs.ucf.edu and Nils Aschenbruck aschenbruck@uni-osnabrueck.de.

Workshops: A number of workshops will be co-located with the conference. Details will be posted on the conference web site. To propose a workshop contact the workshop chair: Soumaya.Cherkaoui@usherbrooke.ca. Workshop papers will be published in the LCN proceedings and IEEE Xplore.

Demonstrations: Proposals are solicited for research demonstrations. A proposal (no more than 3 pages) should describe the scope, significance and required equipment. Submit proposals via EDAS to the *LCN Demo Track*.

Sponsored by the IEEE Computer Society Technical Committee on Computer Communications (TCCC)
